

## Linden Area Construction Update

*“Rebuilding Sheridan”*

*Dave Kinskey, Mayor*

Memo from Mayor Kinskey and Ward 2 Council members Marc Ketcham & John Bigelow:

Communication is vital on a project like this – especially because it affects your neighborhood. We have asked the engineers on the project to keep open lines of communication with you:

- Weekly construction coordination meetings are held in the parking lot of the Child Development Center every Monday at 1 PM. The public is always welcome.
- If you would like to receive these updates via e-mail, please contact Dave Engels of EnTech at [dte@entechusa.net](mailto:dte@entechusa.net) or 307-673-1542 Ext. 6.
- If you have questions, contact Dave or Hanns Mercer, EnTech’s resident engineer for the project, at 751-9106.
- If at any point you have concerns that are not being addressed in the process, please contact Mayor Kinskey at City Hall @ 674-6483, or Council members Marc Ketcham @ 751-4166 or John Bigelow @ 655-5344.

### October 12, 2007 Update from EnTech, Linden Project Engineers

- Hot Iron continues with water and sanitary sewer installation along Linden. Water mains and service lines are anticipated to be completed within the next few days, to be followed closely by the sanitary sewer main and service line installations. Storm sewer will be the last utility constructed. The current schedule calls for the installation of these three utilities to be completed around October 20<sup>th</sup>. Following that work, subgrade preparation and installation of curb, gutter, and sidewalk can commence.
- Both Qwest and Bresnan have completed their relocation of aboveground wires underground on Linden.
- Due to Hot Iron’s efforts to complete Linden before the snow flies, they have postponed much of the sidewalk completion and resodding along Burkitt, Sherman, Griffith and Jefferson. They hope to complete as much of this reclamation work as possible this fall. They also continue to work Saturdays throughout this fall to complete all work.
- The Child Development Center parking lot can continue to be used as an access route for Linden residents south of the CDC’s parking lot. Their parking lot can also be used to park vehicles after 4 PM and before 8 AM on weekdays, and all day on weekends. Continued thanks to those folks for allowing this access during this construction time, and for those who have to endure the construction inconvenience.
- Please be cautious as construction activity continues along Linden. This includes keeping children away from construction activity or open trenches at all times.
