

# Rebuilding for Sheridan's Future

City of Sheridan - Dave Kinskey, Mayor

## WEEKLY CONSTRUCTION

MINUTES

## OLYMPUS DRIVE AND DE SMET AVENUE RECONSTRUCTION PROJECT

### July 21, 2005 Discussion Items:

#### 1. Schedule:

- Waterline installation is continuing south on De Smet Av. Waterline and service lines are being installed as far south as Airport Rd. Waterline in De Smet Av between Shoshone St and Absaraka St is installed, tested and in service. Preparation for paving has started. Pressure testing of the new waterline between Absaraka St and Navajo St will start today. This line may be available to be put into service by the end of next week. Water service will be off for several hours when the new line is tied into the system, estimated to be July 27 or 28. Testing of the new waterline between Navajo St and Arapaho St will be complete by July 29. Service line connections will be complete by July 29. Parking and access to Kona Pl and Kailua Pl will be interrupted for approximately three weeks for waterline work. Residents may want to leave vehicles outside of the cul-de-sac during construction hours.
- Rotomilling is complete on De Smet Av, Kona Pl and Kailua Pl.
- Concrete replacement is continuing on De Smet Av. This crew will follow the waterline testing crew and place concrete as each area is ready.

#### 2. Other:

- Make sure all water service areas have orange barricade fences in place each night before workers leave the site.

#### 3. Information from the City.

The project scope includes replacement of individual service lines from the new main to the curb stop at or near the property line, at no cost to the consumer. The City will not be replacing service lines from the curb stop to the building as they are private lines. However, if you are concerned about the condition of your service line, you may discuss replacing that line with the Contractor while he is in the area. Keep in mind that this is a business agreement between you and the Contractor. The City will not be involved. We are not opposed to the Contractor taking on the extra work so long as he is able to meet the requirements of the contract documents for the City's project.

#### New Service Line Installations

Property owners who have not received water service prior to this project, and would like a new service line run to their property, are required to fill-out an application with the City of Sheridan and pay the appropriate plant investment fees and connection charges (tap, meter, etc.). Please contact Mike Peacock of the City of Sheridan at 674-6483 to obtain an application if you would like to establish a new water service.

Meeting ended at approximately 11:45 am.

Next meeting: July 28, 11:00 am.

Emergency Phone numbers:

Jeff Dahlen (Intermountain Construction and Materials) 680-0052

Brant Zabel (Intermountain Construction and Materials) 751-0860

John Skinner (Western Municipal Co.) 689-2260
